

Dear families,

There are many things that you can do to encourage your child to Doodle 'little and often'.

Follow these steps to ensure you can make the most of the programmes:

- Download the DoodleMaths and DoodleTables apps onto an Apple, Android or Amazon device
- Ask your child to sign in using their login details (remember, it's case sensitive!)
- Link your parent account by either asking your child to login to the app and tap on **Grown Ups** or, via [parents.doodlemaths.com](https://help.doodlehq.com/en/articles/2892158-how-to-link-a-parent-account-to-a-child-s-school-account). Please follow these instructions: <https://help.doodlehq.com/en/articles/2892158-how-to-link-a-parent-account-to-a-child-s-school-account>
- Let your child work through their x-a-day exercise without any help - encourage them to do it independently, and if they're really unsure, save it to tricky questions to get support later
- Log in to parents.doodlemaths.com or the **DoodleConnect** app with your Grown Ups username and password to see how your child is progressing.

Why DoodleMaths?

- Doodle improves children's confidence and ability in maths. Using the apps for just 10 minutes a day is proven to help children make three months of progress in just one month!
- The intelligent algorithm powering the apps learns what your child's strengths and weaknesses are and builds a personalised work programme tailored around them
- It's fun and engaging, with educational games, motivational collectables and regular nation-wide challenges and competitions to take part in!

Encourage your child to be within their green zone by earning their target number of stars per week.

If you have any questions, please visit help.doodlehq.com or speak to the Doodle team by clicking on the green chat icon on doodlemaths.com. We're also running weekly webinars for parents to find out more. Visit our website for more information!

Happy Doodling!
